

**Instrucciones:**

Go to <http://espanol.weather.yahoo.com/> and click on the weather section. Check out cities in a variety of Spanish-speaking countries and describe today's weather. (Short phrases and incomplete sentences are appropriate) You will have two sections for your notes, one for vocab you know from the book and another for new vocabulary that you figure out from Yahoo. You can use the C° and F° links to get temperature information in both Celsius and Fahrenheit.

**Nombre:****Clase:****Fecha:****¿Qué tiempo hace?**

<b>País</b>	<b>Ciudad</b>	<b>Temperatura Máxima</b>	<b>Temperatura Mínima</b>	<b>Condiciones (Realidades p. 18)</b>	<b>Condiciones (CNN)</b>
<i>Bolivia</i>	<i>La Paz</i>	<i>65° F / 18° C</i>	<i>37° F / 3° C</i>	<i>No hace sol.</i>	<i>Parcialmente nublado</i> <i>Partially cloudy</i>
